Please use this CUSTOM COLOUR ORDER FORM to submit with your order.

The colouriser allows for choices of colours for each panel. The colour choices are specially considered so your Fulcrum benefits from the distinctive design language. The PDF Colour Guide shows the choices available.

The colours represented in the on-line colouriser depict available fabric colours. Every effort is made to represent the colours accurately, but please note the actual fabric colour may differ from the colour shown online. Sky Burner Kites and Atelier Kites take no responsibility if the colour you pick does not match the actual fabric colour. In all communication, please refer to the colour names that appear on our website.

Any other colour name may cause your custom kite to be delayed.
