CUSTOM COLOUR ORDER FORM

Fill out this form and submit it with your order.

Use the online colouriser to design your custom kite.
Write the colour names as they appear in the spaces provided.
Use only the colour names that appear on our website.
Any other colour name may cause your custom kite not to be made.

The colours represented in the on-line colouriser depict available fabric colours.
Every effort is made to represent the colours accurately, but please note
the actual fabric colour may differ from the colour shown online.
Sky Burner Kites takes no responsibility if the colour you pick
does not match the actual fabric colour.

Although the colouriser allows for different colours for each panel,
we will only accept a limited range of colours for each panel.
Acceptable colours for each panel are shown on the PDF Colour Guide.
